## IACOBUCCI HF AEROSPACE INTRODUCES ROBUSTA, ITS BRAND NEW COFFEE MAKER FOR AIRPLANES.

April 14th, 2015 – Ferentino (FR) Italy. IACOBUCCI HF AEROSPACE, world leader of innovative, integrated and exclusive solutions for commercial and business aircraft, will display in Hamburg at Aircraft Interiors Exhibition, ROBUSTA, its brand new Coffee Maker designed to enhance the coffee experience on board.

IACOBUCCI HF AEROSPACE SpA, worldwide leader of espresso machines for aviation, introduces in Hamburg, at Aircraft Interiors Exhibition - 14-16 April 2015 - **its brand new coffee maker ROBUSTA**. Following the success of the induction oven GUSTO, the only certified unit for aircraft that allows airlines to cook food on board for their premium passengers like in a 5 stars restaurant, with this new coffee maker, the Italian supplier IACOBUCCI HF AEROSPACE aims to repeat the worldwide success of its Espresso line.

**Lowest weight, best performance through innovative brewing technology, best extraction process for top quality coffee**, the new unit makes coffee, tea or just hot water in seconds at touch of a button. Available in ATLAS and ARINC applications and weighting only 7,5 kg, the company guarantees the new machine will offer the **best coffee experience in the aviation**. "I strongly believe the market is ready for a newly developed coffee maker that, on top of being reliable and lowest in weight, makes at last good coffee in all cabins", adds **Lucio Iacobucci, President and CEO of IACOBUCCI HF AEROSPACE**.

Thanks to an intuitive control panel without handle, the new **ROBUSTA** can brew 1,6 liters of your favorite blend of coffee or tea in less than 150 seconds with no recovery time between cycles. Of a darker color, more intense fragrance and aroma, the coffee made with the new machine is a kind of experience that will please all coffee lovers. Mounted on rail with easy interface for installation and removal and using state-of-the-art technology, the unit performs cycle after cycle with lowest noise level, reduced power consumption and highest reliability.
