## The New Double VIP Seat from Iacobucci HF.

**May, 21<sup>st</sup>, 2013 – Ferentino (FR) ITALY.** *Iacobucci HF is pleased to display in worldwide premiere at Ebase 2013 in Geneva, its **Latest Double VIP Seat**. This new model, fully electromechanically operated, will enhance a premium flying experience delivering top class, high quality, tailored solutions for the most demanding business jet customers.*

The new VIP double Seat entirely MADE IN ITALY, ensures **superb quality, lightweight, comfort and customization**. This product is joining the company's growing seating product range for narrow and wide body Business Jets.

In order to provide its customers with a variety of solutions for their aircraft, the company has developed a **unique double VIP seat**. It provides to demanding customers a mechanical or electrical actuation system for increased comfort and manoeuvrability. With a comfortable 21,5" (54cm) width between armrest, the VIP double seat can easily be converted in a full flat bed with extendable leg rest.

This new model includes a four way headrest providing up-down and tilting features, a life-vest pocket stowage in leg rest together with integrated 3" wide armrests. Furthermore, the central armrests realized with full drop down mechanical release increase passenger space and comfort in full flat position. The mechanical version of the double seat is equipped with three levers to operate all functions and the tracking features include 9" fwd/aft and 9" right/left along with a full 360° swivel. While in its electrical actuated version, the seat is equipped with a control panel to operate two actuators for fully flat bed position along with a 220° swivel.

The lightweight structure and the smooth movements makes it very easy to be used by end customer besides providing quick installation and maintenance by technicians thus reducing operation costs. The new Iacobucci HF double seat is really versatile and it has been designed and developed to meet all customer needs.

Focused on customer satisfaction, Iacobucci HF has set up the customer support department dedicated to seating products with call centre, technical support and spare parts warehouse.

Iacobucci HF continues to invest in the seating business. The product range of Iacobucci HF has a new and fresh design flavour, uses lightweight components and latest technological innovations and has created much interest of customers in the business jet market. The aircraft seating industry is rapidly changing and Iacobucci HF is leading this change thus becoming the point of reference of the most sophisticated business jet customers worldwide.
